

Russell Best  
Constitutionalist I.A.P.

1. What is your motivation for seeking public office? Here's the reason why I believe in God and my Country. 1.I'm Tired of the Republican's empty promises.2. Tired of the Democrat's new change.3. Tired of being taxed and calling it cap and tax, or just spending above our means.4. Feel like the republic is slipping away to socialism.5. Watching billions go to special interest groups and none for us, the people. 6. Knowing the trickle down approach doesn't work.7. Watching our billions go to foreign countries.8. Spending your kid's future.9. Can't find a job. That's why I'm Running for Congress.

2. What are your views on the role of Government? What should be the role of Federal Government? What should be the role of State Government? Its real simple I'm a Constitutionalist and I believe in a Small Federal Government and States Rights.

3. If your views of Government differ from what is taking place now, what would you do to move Government closer to your vision of how it should operate? No Socialism and Balance the Budget. I would stop the Spending and Stop Health care. No new Taxes, I would abolish the Dept of Education, get rid of the Federal Reserve, Repeal the National Emergency Act, Repeal NAFTA, GATT , IMF< De'fund Americorps Private army, Patrol the Borders.

4. What shapes your views on how to vote for or against legislation? If you are running for the office of Governor please explain what shapes your approval or veto of legislation? (For Legislative and Gubernatorial Candidates) The Constitution will provide weather law is legal or a States Right Issue. I will vote What the people want, We work for you the people not the other way around.

5. Give us some idea of the type of legislation you would most likely introduce? What do you feel is the most urgent and important legislation? (Non Legislative Candidates Exempt) Stop any new spending. Repeal of the Health Bill, Stop the Value Add Tax of 15% on everything you buy, Defund the 356 Programs that are Duplicated, stop all new Bailouts from happening. Return all money to the Federal Reserve from Bailouts and repeal the National Emergency Act.

6. What is your stance on ownership of firearms? What sorts of restrictions or bans should be in place? Your views on Concealed Weapons Permits? I believe in the Second Amendment, and States

Rights, that means anyone who wishes to own a Gun can. Who's not a Felon, Terrorist, ETC, That meets the States Laws can have one, without a Concealed Weapons Permit to carry.

7. Would you be willing to help a pro choice helmet bill to the governor's desk for passage

State Legislator - What are your views on the mandated helmet use here in Nevada? Would you support legislation which allows an adult 21 years of age or older to choose a helmet?

Federal Legislator - What are your views on the federal government using transportation funding threats to ensure states keep a helmet law in place? Would you support legislation to allow states to choose the laws that best suits them without threats of revoked funds? Yes I would support legislation that allows States to make up there own mind. It's not the Feds. Jurisdiction under the Constitution .

Gubernatorial - If in office would you approve legislation giving an adult, 21 years or older the right to choose a helmet?

Non Legislative Office - Would you be willing to support ABATE efforts in the right to choose by writing letters of support and/or appearing with ABATE during the legislative session to speak to legislators on behalf of the right to choose?

8. What are your views on the "right to repair" act (H.R. 2057) proposed by Congress? I Disagree with the Government getting into this issue at all. We the people have rights to fix our vehicles any way we desire, we don't need Big brother telling us how to spend our money, as long as it meets State laws and the Bike is legal to drive.

Thank you for taking the time to answer these questions to potential constituents. It means a lot to this organization and helps voters decide on a candidate that best suits them. Responses will be posted on A.B.A.T.E. of Northern Nevada's web site, [www.abatennv.org](http://www.abatennv.org) . You may e-mail your finished response to [ridefree@abatennv.org](mailto:ridefree@abatennv.org) or mail to:
